

The National Association of EMS Educators
EMS Instructor Course Part II & Implementation of National EMS
Education Standards Workshop
May 2-3, 2014 (IC II) and May 4, 2014 (Implementation)
Cooperative Agreement with
CA Fire & Rescue Training Authority – Sacramento, CA
Course Hours - 8 AM – 5:00 PM each day

General Information

The NAEMSE EMS Instructor Course Part II has been designed and developed as a result of the DOT/NHTSA National Guidelines for Educating EMS Instructors. This course will provide educators and program directors with the tools and information needed to further build their leadership skills and better evaluate programs, students, and faculty. This course also includes an online portion that will enhance the two-day in-person sessions. Enrollment will be limited to 80 participants. Individuals who attend the entire course and pass the post test will receive a Certificate of Course Completion from NAEMSE with CEU's which is accredited by the Continuing Education Coordinating Board for Emergency Medical Services (CECBEMS).

The Implementation program designed by NAEMSE will provide a framework upon which EMS educators will clearly understand the intent of the National Education Standards. This workshop will include the knowledge and skills needed to be taught and learned in the classroom. The program will look at the standards themselves for clarity and understanding. It will review ways to develop curriculum, classroom activities and lessons that address the content of the standards in ways that enhance student learning. The program is an eight-hour instructional presentation led by an experienced team of educators who will assist you to fully understand the components of the National Education Standards.

COURSE REQUIREMENTS:

A portion of the IC 2 course will be conducted online and includes educational material pertinent to the successful completion of the course. The NAEMSE textbook "Foundations of EMS Education" second edition is the companion text for this course and is mandatory. Payment information is provided below.
